

Subtraction and Addition

A great way to check your answer when subtracting is to add.
Calculate the difference and put the number in both circles. Check if the sum is correct.

$14 - 9 = \bigcirc$

$\bigcirc + 9 = 14$

$55 - 14 = \bigcirc$

$\bigcirc + 14 = 55$

$37 - 12 = \bigcirc$

$\bigcirc + 12 = 37$

$22 - 8 = \bigcirc$

$\bigcirc + 8 = 22$

$89 - 43 = \bigcirc$

$\bigcirc + 43 = 89$

$63 - 17 = \bigcirc$

$\bigcirc + 17 = 63$

$102 - 25 = \bigcirc$

$\bigcirc + 25 = 102$

$41 - 20 = \bigcirc$

$\bigcirc + 20 = 41$

$93 - 8 = \bigcirc$

$\bigcirc + 8 = 93$

$114 - 37 = \bigcirc$

$\bigcirc + 37 = 114$

$16 - 7 = \bigcirc$

$\bigcirc + 7 = 16$
